Subject: Environmental Representative Approval

Dear Mr Ball

I refer to your request for the Planning Secretary's approval of the Environmental Representative (ER) under condition A20 of the state significant infrastructure approval for Billabong Creek Environmental Water Regulators (SSI-50831979).

The Department has reviewed the nominations and information you have provided for Tony Hobbs as Lead ER, and Susannah Price as Alternate ER (both of Vantage Environmental Management). The Department is satisfied that the nominations meet the requirements of condition A20 to A22 of the approval as the nominations:

- meet the requirements of the *Environmental Representative Protocol (Department of Planning and Environment, October 2018)*.
- are for suitably qualified and experienced persons.
- are for persons who were not involved in the preparation of the documents listed under condition A1 of the approval.
- are for persons independent from the design and construction personnel for the SSI and those involved in the delivery of it.

Accordingly, I can advise that the Planning Secretary approves the appointment of Tony Hobbs as Lead ER and Susannah Price as alternative ER for the Project.

If you wish to discuss the matter further, please contact Benjamin Cox on 02 9955 5268.

Yours sincerely

Glenn Snow
