Subject: Revised Planning Secretary's Environmental Assessment Requirements

Dear Ms Harvey

I am writing in response to your letter dated 18 October 2024 requesting an extension of the Secretary's Environmental Assessment Requirements (SEARs) for the Narrabri Lateral Pipeline (SSI-53307723) to allow additional time to prepare the EIS and to allow adequate time for an EPBC referral decision to be made.

The Department has extended the SEARs until 9 December 2025 and made some minor corrections and revisions to reflect contemporary policy settings.

The revised SEARs are attached and will be made available on the department's website at <https://www.planningportal.nsw.gov.au/major-projects/projects/narrabri-lateral-pipeline>

Please note that your application will need to be accompanied by an Estimated Development Cost (EDC) Report supporting the estimated development cost for your project. You must ensure that the information in the report is consistent with the information provided in your DA form and in the EIS.

Once you submit your EDC Report, we will check it for completeness against the requirements of the EP&A Regulation and the relevant Planning Circular.

If you have any questions, please contact Rose-Anne Hawkeswood on 02 9274 6324 or via email at rose-anne.hawkeswood@planning.nsw.gov.au.

Yours sincerely

Director, Resource Assessments
As delegate for the Planning Secretary
