18 July 2019

Mr John Wiggers de Vries  
Environment & Sustainability Director  
Lendlease Bouygues Joint Venture  
Locked Bag 1001  
WEST PENNANT HILL NSW 2125

Dear Mr Wiggers de Vries

**EPA Letter Response – NorthConnex Project (SSI 6136)  
CoA E11 Modification Request – Correction of VOC ventilation outlet limit**

I refer to the request from Lendlease Bouygues Joint Venture (LLBJV) to the NSW Environment Protection Authority (EPA) dated 3 June 2019 requesting the EPA review, and comment on the updated modification request for Condition E11 of the NorthConnex Conditions of Approval (CoA).

The modification proposes to increase the VOC emission limit from 1 mg/m<sup>3</sup> to 4 mg/m<sup>3</sup>.

The EPA has reviewed the Modification Request and based on the information available, the EPA does not raise any objection to the increase of the VOC emission limit from 1 mg/m<sup>3</sup> to 4 mg/m<sup>3</sup>.

The EPA also notes the AECOM modelling demonstrates the increased VOC emission limit from 1 mg/m<sup>3</sup> to 4 mg/m<sup>3</sup> does not result in adverse air quality impacts. The EPA therefore is satisfied with the information provided.

If you wish to discuss any of the issues raised in this letter, please contact Rashad Danoun

Yours sincerely
