Subject: Preparation of Modification Report – MOD 1 Uranquinty Compressor Station (SSI-65512969-Mod 1)

Dear Mr Connellan,

I refer to the Scoping Report (dated 27 November 2023) outlining the proposed modification (MOD 1 Uranquinty Compressor Station) to the Culcairn to Wagga Pipeline (SSI-65512969).

Based on the information provided, the Department confirms that the proposed activities can be assessed as a Section 5.25 modification of the *Environmental Planning and Assessment Act 1979* (EP&A Act). The Department will not be issuing formal Environmental Assessment Requirements for the Proposed Modification.

Your Modification Report must be prepared having regard to the Department's State significant Development guidelines – preparing a modification report. All relevant guides for State significant projects are available at www.planning.nsw.gov.au/Policy-and-Legislation/Planning-reforms/RapidAssessment-Framework

The Department requires that in addition to the assessment outlined in your Scoping Report, that you:

- assess the potential social and economic impacts associated with workforce accommodation requirements; and
- provide sufficient justification for the proposed works outside of standard construction hours described in section 3.4.5 of the Scoping Report.

Department of Planning, Housing and Infrastructure

If you have any questions, please contact Jack Turner on 9995 5387.

Yours sincerely
