<b>Adjacent residents and businesses</b>	Community notification provided on 18 June 2022 Stakeholder email 27 June 2022 Door-to-door surveys/interviews conducted between 30 May 2022 to 12 June 2022 (as part of the Social impact assessment undertaken for the proposed modification)	Comments raised by adjacent residents related to noise including increased noise during construction and operation and planned mitigation measures.	Noise monitoring was undertaken between February 2021 and March 2021 to identify potential impacts resulting from the Westlink M7 widening on the surrounding community and environment. The locations for noise measurements were selected to provide a reasonable assessment of the potential impacts of the widening. The results of the noise assessments and mitigation measures are presented in <b>Section 7.2</b> (Noise and vibration).
		Comments raised by adjacent residents related to increased traffic on surrounding road network, particularly on Richmond Road, and whether this would be addressed as part of the proposal.	The focus of the proposed modification is the widening of the M7, the traffic issues on Richmond Road is not within the scope of the proposed modification. This feedback has been redirected to the correct team within Transport for NSW and a response was provided on 6 July 2022.
		Comments raised by adjacent residents related to how the widening would occur at the bridge sections.	Information on the proposed widening with reference to the key design features of the proposal were provided. More information on the design is found in <b>Chapter 4</b> (Proposed modification).
