Subject: Hunter Transmission Project

Dear Sir/Madam

The Department of Planning, Housing and Infrastructure – Crown Lands has reviewed the proposal. Crown land, roads, or waterways are included within the project footprint on this occasion.

For the use and access of Crown land, roads, or waterways within the project footprint, the following considerations apply:

- The Crown land subject to the proposal includes multiple lots.
- Any use or occupation of the Crown land during the assessment phase will require consultation with Crown Lands to obtain the necessary authority under the *Crown Land Management Act 2016* and/or the *Roads Act 1993*.
- If Crown roads are required for access, they may need to be transferred to Council, or an application made to close and purchase the roads. Interim tenure may be required to avoid delays.
- Crown Lands notes that there are several Crown roads within the project area. These roads may provide legal access to the development but may not provide practical access.
- If the proposal necessitates the acquisition of Crown land/roads, this must be undertaken in accordance with the *Land Acquisition (Just Terms Compensation) Act 1991* (LAJTC Act).
- Authority to use, traverse, access, or construct infrastructure on Crown land and roads is required under the *Crown Land Management Act 2016* and/or the *Roads Act 1993*. It is recommended that the proponent contact Crown Lands as early as possible to discuss and initiate the necessary processes to authorise the use of and/or access to Crown land and roads. If infrastructure is to be built on Crown land or roads, consent from the Minister for Water, Property and Housing (via Crown Lands) will be required. Constructed roads may also need to be transferred to Council.

Yours sincerely
