Subject: Amendment of Application – Hunter Transmission Project (SSI-70610456)

Dear Mr Watt

I refer to the Amendment Report which was submitted on 3 March 2026 in accordance with clause 179(2) of the Environmental Planning and Assessment Regulation 2021 for Hunter Transmission Project (SSI-70610456).

The Amendment Report has requested the following changes to the project application:

- adjustments to the transmission alignment, and localised easement widening;
- changes to substation infrastructure at Eraring and Bayswater;
- changes to intersections, access roads and access tracks, including revised access track locations, minor adjustments to the project impact areas for intersection upgrades, and adjustments to proposed construction access routes;
- changes to ancillary facilities, including reconfiguration of construction support sites and temporary worker accommodation, laydown areas, the Flick Road emergency helicopter landing area and stringing sites within Olney State Forest; and
- changes to construction plant and equipment types and locations of use.

The department has carefully considered the information and accordingly, as delegate of the Minister for Planning and Public Spaces, I approve the proposed amendment of the application.

If you have any questions, please contact Anthony Ko on 02 8217 2022 or via email at

anthony.ko@planning.nsw.gov.au.

Yours sincerely,

Nicole Brewer
Director
Energy Assessments

as delegate of the Planning Secretary
