[Planning Number: SSI-72887208](#)

Victoria to NSW Interconnector West

The Department of Planning, Housing and Infrastructure – Crown Lands has reviewed the proposal and identified several issues for your consideration.

Crown Roads

There are multiple Crown roads, including Crown roads with enclosure permits, both within and adjoining the proposed development area. Please refer to the attached maps where Crown roads are shown in green lines. Note: As the eastern portion of the development is to traverse the Renewable Energy Zone (REZ) some of these roads may have been dealt with other renewable projects.

Authority to use, traverse, access or build infrastructure on Crown land and roads is required under the Crown Land Management Act 2016 and/or the Roads Act 1993. It is recommended that the proponent contact Crown Lands as early as possible to discuss and initiate the processes required to authorise the use of and/or access to Crown land and roads.

If infrastructure needs to be built on Crown land or roads, the consent of the Minister for Water, Property and Housing must be obtained, via Crown Lands, and constructed roads may need to be transferred to Council. Further information regarding landowner's consent for Crown land and roads can be found at the following link: <https://www.crownland.nsw.gov.au/resources/guides-and-factsheets>

Lineal Infrastructure (e.g., Pipelines and/or Electricity Transmission lines) traversing Crown land/roads

If lineal infrastructure (such as pipelines and/or electricity transmission lines) are expected to traverse Crown land, roads and waterways, an easement over said Crown land, roads and waterways will be required for protection of the infrastructure. To discuss easement requirements, please contact the Acquisitions team at the earliest opportunity at: cl.acquisitions@crownland.nsw.gov.au.

Information regarding the easement process is available at the below link:
<https://www.crownland.nsw.gov.au/protection-and-management/easements>

As the easement process may be lengthy, it is also recommended that the proponent apply for a licence for each Crown Road and Crown land lot as soon as possible. A licence will temporarily

authorise use and access for the infrastructure to traverse Crown roads and Crown land whilst the easement applications are being processed.

Details on how to apply for a licence are available at the below link:

<https://www.crownland.nsw.gov.au/licences-leases-and-permits/apply-or-manage-licence>

Travelling Stock Reserves /Crown Reserves/Aboriginal Land Claims/Native Title

There are potentially multiple Travelling Stock Routes and several Crown Reserves that may be impacted by the proposal, these are managed by both Riverina and Murray Local Land Services. The majority of these are subject to undetermined Aboriginal Land Claims (ALC's). As such, concurrence with the NSW Aboriginal Land Council (NSWALC) would be required. Further information regarding Aboriginal Land Claims can be found at the following link: <https://www.crownland.nsw.gov.au/protection-and-management/aboriginal-land-rights-and-native-title/aboriginal-land-claims>

Additionally, a tenure will be required to authorise any use of and/or access to these lots, which may be subject to Native Title. This will need to occur prior to the commencement of any works.

Information regarding Native Title can be found at the below link:

<https://www.crownland.nsw.gov.au/protection-and-management/aboriginal-land-rights-and-native-title/native-title>

If the proponent requires further information, or has any questions, please contact Adam Craig, Senior Natural Resource Management Officer in Crown Lands, on 0419 484 350 or at adam.craig@crownland.nsw.gov.au.

Yours sincerely

Peter Bisset

Acting Group Leader Property Management
