

Attention Lisa Mitchell

RE: SSI 7400/ Mod 9 Chatswood to Sydenham Metro – modification request to Condition E36

Comments from North Sydney Council

21 June, 2022

Ms Mitchell,

Thank you for the opportunity to comment on the requested amendment to Saturday working hours. Council is concerned that the requested construction hours to 6pm on Saturdays will set an undesirable precedent for all other construction sites in the LGA. It is noted that there are a significant number of major projects in the area which will all be seeking similar working conditions. Granting the requested extension will undermine Councils ability to maintain an equitable and consistent approach to construction impacts on the wider community/ neighbours.

It is requested that the extension to standard construction hours be limited to 5 pm on Saturdays.

Please note that later hours can be considered where exceptional circumstances apply (subject to a date specific 'out of hours' permit.

Regards

Gavin McConnell
