

Fil Cerone
Director of Sustainability, Environment and Planning
City and Southwest
Sydney Metro
Level 43, 680 George Street
Sydney, NSW, 2000

29 October 2021

Dear Mr Cerone

**Sydney Metro City and Southwest - Chatswood to Sydenham (SSI-7400)
Barangaroo Station Construction Noise and Vibration Impact Statements**

I refer to the Barangaroo Station Construction Noise and Vibration Impact Statements (CNVIS) for the Underground Station Works and the Civil Works Packages, which were submitted to the Department for information in accordance with Condition E33 of SSI-7400.

I note that both the Underground Station Works CNVIS (Revision 3) and the Civil Works CNVIS (Revision 3):

- have been reviewed by Sydney Metro and no outstanding issues remain;
- consider construction traffic noise;
- contain commitments to minimise cumulative noise impacts from other construction activities;
- meet the relevant conditions of approval; and
- have been reviewed and endorsed by the project's Acoustic Advisor.

You are reminded that if there is any inconsistency between each CNVIS and the conditions of approval, then the requirements of the condition will prevail.

If you wish to discuss the matter further, please contact Grant Brown at grant.brown@dpie.nsw.gov.au

Yours sincerely

A handwritten signature in black ink, appearing to read 'M. Todd-Jones'.

Matthew Todd-Jones
