

Fil Cerone
Director of Sustainability, Environment & Planning City & Southwest
Sydney Metro
680 George Street
Sydney NSW 2000

23/11/2021

Dear Mr Cerone,

Sydney Metro City & Southwest (SSI-7400)
Condition C16: Victoria Cross Integrated Station Development Monitoring Reports

I refer to the below documents submitted to the Planning Secretary for information under condition C16 of SSI 7400:

- Victoria Cross Integrated Station Development Groundwater Monitoring Report January - June 2021, Revision 2; and
- Victoria Cross Integrated Station Development Noise and Vibration Monitoring Report January-June 2021 Revision C.

I note that the monitoring reports:

- have been reviewed by Sydney Metro and no issues were raised,
- concluded that noise and vibration, and surface water monitoring results raised no major concerns for the period,
- are in the process of being submitted to the EPA, NRAR and City of Sydney Council, as required by Condition C16, and
- has been endorsed by the project Acoustic Advisory (in relation to the Noise and Vibration Monitoring Report).

You are reminded that if there is any inconsistency between the above monitoring reports and the conditions of approval, then the requirements of the conditions of approval will prevail.

If you wish to discuss the matter further, please contact Scott Cooper at scott.cooper@planning.nsw.gov.au.

Yours sincerely

Matthew Todd-Jones
Team Leader - Rail
Infrastructure Management

As nominee of the Planning Secretary
