

# 8 Conditions of Approval

This chapter outlines the conditions of approval relevant to the project, as described in Chapter 1 (Introduction), that would need to be amended as a result of the proposed modification.

A review of the conditions of approval for the project was undertaken to identify the conditions that would require either amendment or deletion as part of the proposed modification.

## 8.1 Conditions to be amended or removed

Table 7-1 presents the proposed changes to the conditions of approval for the project. These changes are required to Schedule 1 (description of critical State Significant Infrastructure (CSSI)) and Schedule 2 (conditions of approval). Proposed amendments are shown in bold text and deletions shown as strikethrough text.

The proposed changes would ensure that the conditions of approval are consistent with the proposed modification.
