Dear Ms Taylor

WestConnex Stage 3A Main Line Tunnels SSI 7485
Reuse of salvaged heritage items

I refer to your letter dated 8 September 2020, requesting clarification regarding heritage items salvaged during construction of the project and the application of condition of approval E165.

I can advise that any salvaged heritage items must be re-used in accordance with the Heritage Interpretation Plan (refer condition E167) and items and materials are to be made available through a process developed in consultation with the relevant local council, to landowners within the locality (refer condition E165).

This does not preclude council from taking custody of the salvaged items if this supports a better heritage outcome than private ownership and if the final heritage reuse and interpretation documentation supports this outcome.

If you wish to discuss the matter further, please contact Carl Dumpleton on 9274 6283 or carl.dumpleton@planning.nsw.gov.au.

Yours sincerely

Erica van den Honert

Director: Infrastructure Management
