Subject: **WestConnex M4-M5 Link – Stage 3 (SSI-7485): Operational Road Network Performance Review Alternative Timeframe Request**

Dear Mr Chahal,

I refer to your submission, dated 25 January 2024, seeking approval for an alternative timeframe for the submission of the Operational Road Network Performance Review (ORNPR) required by condition E64 under condition A8 of SSI-7485.

I note that:

- the alternative timeframe is required to ensure there is sufficient time to gather the information needed to understand the changes to the performance on the network, and meaningfully engage with councils; and
- clarify submission timeframes for the 12-month and 5-year ORNPRs.

As nominee of the Planning Secretary, I approve your request for an alternative timeframe to submit the Operational Road Network Performance Review (condition E64) under condition A8 as follows:

- 12-month ORNPR by 30 June 2025; and
- 5-year ORNPR by 30 June 2030.

Please ensure you provide the Department with quarterly updates, and as requested, on the progression of these reviews including the development, implementation and review of the performance of mitigation measures, and how the project is consulting with councils.

If you wish to discuss the matter further, please contact Edward Kenney on edward.kenney@dpie.nsw.gov.au.

Yours sincerely

Dominic Crinnion
Director
Infrastructure Management

As nominee of the Planning Secretary
