Subject: Operational Noise and Vibration Report for Parramatta Light Rail (E48 of SSI-8285)

Dear Ms Easton

I refer to your submission dated 20 May 2022 requesting approval of the Operational Noise and Vibration Report (ONVR) Revision 11, dated 19 May 2022. I also acknowledge your response to the Department's review comments and requests for additional information.

I note the ONVR has been:

- Prepared in consultation with EPA, City of Parramatta Council and other directly affected receivers;
- Reviewed by TfNSW and no issues have been raised with the Department;
- Endorsed by the Acoustics Advisor; and
- Reviewed and contains the information required by the conditions of approval.

I also note that an investigation into ground borne noise at Receiver 2331 and a separate investigation into the placement of a noise barrier at C5825-C6050 are ongoing upon the submission of the ONVR. The outcomes of these investigations must be submitted to the Department for review upon completion.

As nominee of the Planning Secretary, I approve the Operational Noise and Vibration Report (Revision 11, 19 May 2022) under Condition E48.

You are reminded that if there is any inconsistency between the approved document and the conditions of approval, then the requirements of the conditions of approval prevail.

Please ensure you make the document and this approval letter publicly available on the project website.

If you wish to discuss the matter further, please contact Grant Brown at grant.brown@dpie.nsw.gov.au.

Yours sincerely
