

Poppy Coleman
Associate Director Safety, Sustainability, Environment and Assurance
Transport for NSW
Locked Bag 5085
PARRAMATTA NSW 2124

09/03/2021

Dear Ms Coleman

**Parramatta Light Rail Stage 1 (SSI 8285)
Package 5 Supply Operate and Maintain works – Activity A and B
Noise and Vibration Monitoring Program**

I refer to your submission of the Package 5 SOM Noise and Vibration Monitoring Program (Revision D) under condition C9 of SSI 8285. I also acknowledge your response to the Department's review comments and requests for additional information.

I note that the Package 5 SOM Noise and Vibration Monitoring Program:

- has been prepared in consultation with the relevant government agency/stakeholders
- has been reviewed by TfNSW and no issues have been raised
- has been endorsed by the Environmental Representative
- contains the information required by the conditions of approval.

You are reminded that Activity B works must not commence until an updated CEMP that includes the complete Package 5 scope of works has been approved by the Planning Secretary. The updated CEMP must be endorsed by the ER and then submitted to the Planning Secretary for approval no later than one month before the commencement of construction.

You are reminded that if there is any inconsistency between the Package 5 SOM Noise and Vibration Monitoring Program (Revision D) and the conditions of approval, then the requirements of the conditions of approval will prevail.

If you wish to discuss the matter further, please contact Rebecca Eddington on 8289 6702 or at rebecca.eddington@planning.nsw.gov.au.

Yours sincerely

Jake Shackleton
A/Director - Infrastructure Management

As nominee of the Planning Secretary
