Dear Mr Harper

**Warragamba Dam Wall Raising - additional feedback for consideration**

The exhibition of the Environmental Impact Statement (EIS) for the Warragamba Dam Raising (the Proposal) concluded on 19 December 2021 and the Department of Planning and Environment (the Department) requested that WaterNSW prepare a Submissions Report and Preferred Infrastructure Report on 17 January 2022.

The Australian Government has forwarded correspondence from the Australia International Council on Monuments and Sites (Australia ICOMOS) and the United Nations Educational, Scientific, and Cultural Organization (UNESCO) to the Department following the end of exhibition. The Department considers these organisations are key stakeholders in the assessment of the proposal.

The Department requires that the feedback raised by these organisations and attached to this letter is addressed by WaterNSW in the Submissions Report and Preferred Infrastructure Report.

If you have any questions, please contact Lloyd Eley-Smith, Team Leader Water Assessments, at the Department of Planning and Environment on 02 8217 2045.

Yours sincerely

19 January 2022

**Glenn Snow**  
**A/ Executive Director**  
**Infrastructure Assessments**
