**Powering Sydney's Future (SSI-8583)  
Variation to approved construction hours  
Addison Road, Marrickville, 14 June to 15 July 2021**

I refer to the request (SSI-8583-PA-60) which was submitted on 9 June 2021 for the Planning Secretary's approval of out of hours works for the Powering Sydney's Future project.

Condition E8(e)(ii) of the project approval enables an approval process where high risk activities may be approved outside the hours identified in Conditions E4 and E5. The approval process is documented in the *Out of Hours Works Protocol* included as Appendix D to the *Construction Noise and Vibration Management Plan* (Revision 4, 13/08/2020; approved 21/08/2020).

The Department has carefully reviewed the request and notes the following:

- The request seeks to extend, by approximately one month, the timeframe for completing out of hours works on **Addison Road: Enmore Road to Fortheringham Lane** when compared with the approval issued 4 March 2021 (our ref. SSI-8583-PA-49)
- To date, one complaint has been received by the project about out of hours works carried out on **Enmore and Addison Roads, Marrickville** between 4 March to 13 June 2021, being the timeframe in the approval issued 4 March 2021
- Final works schedules are dependent on road occupancy licences
- Noise and vibration management measures proposed include:
  - Completing high impact works between 7am and midnight, where practical
  - Installing noise barriers around high impact works, where safe
  - Providing one respite hour for every three hours of continuous high impact works
  - Offering respite offers, for example movie tickets, on a case-by-case basis
  - Securing road plates to minimise noise due to passing traffic
  - Carrying out noise and vibration verification monitoring
  - Positioning lighting to minimise light spill
  - Doing door knocks immediately adjacent to the works, COVID permitting
  - Holding individual community briefings, COVID permitting
  - Delivering letters notifying of work activities 7 days before.

Accordingly, the Planning Secretary has approved the request subject to the following:

1. Works must be undertaken in accordance with the *Out of Hours Works Construction Noise and Vibration Impact Statement* (VMS Australia, 3 September 2020), including but not limited to implementing all noise management controls described in Section 9, and the *Out of Hours Works Permit 018* (Taihan Garde, Rev 0, 09/06/2021), unless otherwise varied by the conditions below:
2. Works on **Addison Road: Cook Road to Illawarra Road** must not be undertaken outside the hours identified in Conditions E4 and E5 of the conditions of approval except for works

between 1800 and 0600 for up to five nights per week and up to 15 nights total between 1800 Monday 14 June 2021 and 0600 Thursday 15 July 2021.

3. Written notice must be provided to surrounding residential occupiers and placed on site at least 48 hours before work occurs outside the standard construction hours defined in the project approval. The written notice must:
  - a. identify what works are to occur outside standard construction hours;
  - b. nominate the timeframe the works are likely to occur;
  - c. be reissued 24 hours before any work occurs outside normal construction hours if the wet weather requires an alternative day from that notified; and
  - d. provide a telephone contact number of the construction site manager during the extended construction hours.
4. A record of any complaints made regarding works undertaken during the extended construction hours must be provided to the Department's Compliance team within 24 hours of the complaint.
5. In the event that any complaint is received, appropriate mitigation measures are to be implemented, and the Department and the complainant are to be informed of the actions undertaken to address the complaint.

Yours sincerely

A handwritten signature in black ink, appearing to read 'R. Sherry', with a large, stylized circular flourish at the end.
