Re: Beaches Link and Gore Hill Freeway Connection (SSI-8862) – Additional information related to contamination

2 June 2022

Attn: Belinda Scott

Dear Erica,

Further to the commitments made by Transport for NSW in its letter to the Department of Planning and Environment (the Department) dated 15 December 2021, please find enclosed additional information in relation to contamination for the Beaches Link and Gore Hill Freeway Connection project including:

- a Framework Sampling, Analysis and Quality Plan (SAQP) reviewed and approved by a Contaminated Land Consultant certified under the Environment Institute of Australia or New Zealand's "Certified Environmental Practitioner" (Site Contamination) scheme (CEnvP(SC))
- a non-statutory Section B2 Site Audit Statement and Site Audit Report issued by a Site Auditor accredited under the *Contaminated Land Management Act 1997* (with the Framework SAQP contained within).

Transport for NSW confirms that the Site Auditor's recommendations and advice issued via interim audit advice have been addressed to the Site Auditor's satisfaction through an update to the Framework SAQP.

Please contact Jack McGovern at jack.mcgovern@transport.nsw.gov.au should you wish to discuss or clarify any issues.

Yours sincerely,

Doug Parris
A/Executive Director, Regional Infrastructure Development
