

09 December 2025

Mr Lloyd Eley-Smith
A/Director – Infrastructure Management
Department of Planning, Housing and Infrastructure
4 Parramatta Square
Parramatta NSW 2150

Dear Mr Eley-Smith,

Western Harbour Tunnel and Warringah Freeway Upgrade (SSI 8863) – Submission of Local Road Plan) – Falcon St, Merlin and Moodie St (Rev E) (Condition E132) for Approval

Transport for NSW refer to the Minister's Condition of Approval E132 of SSI 8863 requiring the approval from the Planning Secretary for the use of local roads proposed to be used by heavy vehicles to access the construction boundary and ancillary facilities. The attached assessment has been prepared for Stage 2 – Warringah Freeway Upgrade for the Falcon St, Merlin and Moodie St areas.

In accordance with the requirements detailed in Condition E132 and E133, the attached assessment (Rev E) supports the use of the nominated local roads and is being submitted to the Planning Secretary for approval. Justification of the amendments are outlined below

- Program delays had pushed the commencement of works to a later start date, which has had implications in completing the works by the nominated timeframes. The extension of time proposed in Rev E will permit all remaining remedial works to be completed.

Consultation has occurred with North Sydney Council, as outlined in Appendix A6 of the Local Roads Plan.

If you have any further questions, please contact Chris Dickson on 0478 264 357 or Chris.Dickson@transport.nsw.gov.au.

Yours sincerely,

Tony Sheppard
Project Director – Warringah Freeway Upgrade
Transport for NSW
