Western Harbour Tunnel & Warringah Freeway Upgrade (SSI-8863)
Staging Report, Revision 13 (Condition A10)

Dear Mr Cooper,

I refer to the Staging Report, Revision 13 dated December 2025 submitted to the Department for information in accordance with condition A10 of SSI-8863.

I note that the Staging Report, Revision 13 has been:

- updated to reflect amendments to the Stage 3 – Western Harbour Tunnel, including non-contestable works, applicability of Public Transport – Construction Conditions of Approval and the Environmental Aspect and Impacts Register (Appendix D)
- endorsed by the Environmental Representative for the Western Harbour Tunnel and Warringah Freeway Upgrade; and
- reviewed by Transport for NSW (TfNSW) and no issues were raised.

You are reminded that TfNSW is responsible for coordinating the various stages of work in a manner that minimises its cumulative impacts that may arise from the proposed staging.

Please note that if there are any inconsistencies between the Staging Report and the conditions of approval, then the requirements of the conditions of approval will prevail.

Please ensure that the Staging Report is placed on the project website at the earliest convenience as per condition B15.

If you wish to discuss the matter further, please contact Katherine Klouda at Katherine.klouda@planning.nsw.gov.au.

Yours sincerely

Sarah Kamarudin

Acting Team Leader
Infrastructure Management

As nominee of the Planning Secretary
