**Western Harbour Tunnel and Warringah Freeway Upgrade (SSI8-863)  
Stage 2 – Construction Water Reuse Strategy (Condition E127)**

Dear Mr Sheppard

I refer to the Stage 2 Construction Water Reuse Strategy (CWRS), Revision 2 dated 1 July 2022 submitted to the Department as required under condition E127 of SSI 8863. I acknowledge your response to the Department's review comments and requests for additional information.

I note that the Stage 2 CWRS Revision 2:

- evaluates the water reuse options for Stage 2 of SSI 8863;
- has been reviewed by Transport for NSW and no issues were raised; and
- will be updated following the approval of any new ancillary facilities for Stage 2 works.

I remind you that if there is any inconsistency between the CWRS Revision 2 and the conditions of approval, then the requirements of the conditions of approval will prevail. Please ensure that the strategy is placed on the project website in accordance with condition B15 and E127.

If you wish to discuss the matter further, please contact Mike Pereira at Mike.Pereira@dpie.nsw.gov.au.

Yours sincerely

Shelley Reed  
Team Leader  
Infrastructure Management

As nominee of the Planning Secretary
