Dear Mr Doyle,

**M6 Stage 1 (SSI-8931)
Staging Report - Condition A11**

I refer to the Staging Report Revision 00, dated 6 September 2021 submitted in accordance with Condition A11 of SSI-8931. I acknowledge and thank you for your response to the Department's review comments and request for additional information.

I note that the Staging Report:

- identifies how the project will be staged;
- was endorsed by the Environmental Representative;
- was prepared to meet the requirements of Conditions A11 - A15; and
- was reviewed by Transport for NSW and no issues were raised.

I remind you that any changes to the design and construction methodology for the realignment of the overhead power lines and sewer relocation resulting in impacts that are not covered within the risk assessment (Appendix A2) will require these works to be completed during Stage 2 as outlined in the Staging Report.

Please note, that if there are any inconsistencies between the Staging Report Revision 00 and the conditions of approval, then the requirements of the conditions of approval will prevail.

If you wish to discuss the matter further, please contact Mike Pereira at Mike.Pereira@dpie.nsw.gov.au.

Yours sincerely
