Subject: M6 Stage 1 – West Botany Street Tree Report, Condition E146 (SSI-8931)

Dear Mr Voigt

I refer to M6 Stage 1 West Botany Street Tree Report, dated 14 October 2024, which was submitted to the Planning Secretary for approval as required under condition E146 of SSI-8931.

I note the West Botany Street Tree Report:

- has been prepared by an independent experienced and suitably qualified arborist, Danny Draper from Urban Tree Management Australia Pty Ltd;
- identifies and provides justification for the removal of 2 trees along West Botany Street due to unavoidable impact resulting from their full encroachment over a proposed driveway, required for entry and exit of semi-trailers accessing the Kirby Industrial Estate for the duration of the soft ground tunnelling works;
- has been reviewed by Transport for NSW, and no issues were raised to the Department; and
- contains the information required by the corresponding condition of approval.

Accordingly, as nominee of the Planning Secretary, I approve the West Botany Street Tree Report dated 14 October 2024, under condition E146 of SSI-8931.

I remind you that the planting of the replacement trees will be carried out in accordance with E145 with a separate Tree Replacement Report provided to the Department as per condition E149 of the Approval.

Please ensure that the approved Tree Report is placed on the project website in accordance with condition B15, if already not done so.

You are reminded that if there are any inconsistencies between the West Botany Street Tree Report and the conditions of approval, the conditions will prevail.

Should you wish to discuss the matter further, please do not hesitate to contact Ms Tanja Ibsen at Tanja.Ibsen@dpie.nsw.gov.au.

Yours sincerely

Shiraz Ahmed
Acting Director
Infrastructure Management

As nominee of the Planning Secretary
