

Teresa Avila  
Project Director M6 Stage 1  
101 Miller Street  
North Sydney NSW 2059

14/03/2022

Dear Ms Avila,

**F6 Extension - New M5 to President Avenue - (SSI-8931)  
Condition E112 - Remediation Action Plan - Construction Ancillary Facility (C6)**

I refer to the Remediation Action Plan (RAP) submitted to the Planning Secretary for information in accordance with Condition E112 of SSI-8931, for 734-736 Princes Highway, Kogarah - Construction Ancillary Facility (C6).

I note that the RAP:

- details how the environmental and human health risks will be managed during the disturbance, remediation and/or removal of contaminated soil or groundwater;
- has been reviewed by Transport for NSW and no issues were raised; and
- has been prepared to meet the conditions of approval.

I also note that NSW EPA Accredited Site Auditor, Dr Ian C Swane of Ian Swane & Associates has issued Interim Audit Advice indicating his support and approval of the RAP.

You are reminded that:

- if there is any inconsistency between the RAP and the conditions of approval, then the requirements of the conditions of approval will prevail; and
- contaminated land must not be used for the purpose approved under the terms of this approval until a Section A Site Audit Statement (SAS) is obtained which states that the land is suitable for that purpose and any conditions on the Section A Site Audit Statement have been complied with. The SAS and its accompanying Section A Site Audit Report must be submitted to the Planning Secretary after remediation.

If you wish to discuss the matter further, please contact Grant Rokobauer at [grant.rokobauer@dpie.nsw.gov.au](mailto:grant.rokobauer@dpie.nsw.gov.au).

Yours sincerely

**Jake Shackleton**

**Director – Infrastructure Management**

As nominee of the Planning Secretary
