Updated Map Book (Part A)

Updated Map Book (Part B)

Updated Map Book (Part C)

Updated Map Book (Part D)

Updated Map Book (Part E)

Technical Report 1: Updated biodiversity development assessment report (Part 1)

Technical Report 1: Updated biodiversity development assessment report (Part 2)

Technical Report 1: Updated biodiversity development assessment report (Part 3)

Technical Report 8: Updated noise and vibration assessment—construction and other operations (Part 1)

Technical Report 8: Updated noise and vibration assessment—construction and other operations (Part 2)

Technical Report 8: Updated noise and vibration assessment—construction and other operations (Part 3)

Technical Report 8: Updated noise and vibration assessment—construction and other operations (Part 4)

Technical Report 8: Updated noise and vibration assessment—construction and other operations (Part 5)

Technical Report 9: Updated noise and vibration assessment—operational rail (Part 1)

Technical Report 9: Updated noise and vibration assessment—operational rail (Part 2)

Addendum Aboriginal cultural heritage assessment report

Aboriginal community and stakeholder engagement preliminary framework

Addendum social assessment report

Social impact management plan

Technical Report 3: Updated flooding and hydrology assessment report

Appendix A Structures and blockage factors

Appendix B Independent peer review

Appendix C Modelled catchment peak flows

Appendix D Existing flooding

Sub appendix D1 Existing maximum flood depths

Sub appendix D2 Existing maximum flow velocities

Sub appendix D3 Existing flood durations

Sub appendix D4 Existing maximum hazard

Appendix E Geomorphology assessment

Appendix F Construction phase—afflux

Appendix G Operational flood mapping

Sub appendix G1 Operational—afflux

Sub appendix G2 Operational—change in flow velocity

Sub appendix G3 Operational—change in flood duration

Sub appendix G4 Operational—change in hazard

Appendix H Detailed operational flood mapping for Narramine and Narrabri

Appendix I Assessment against Quantitative Design Limits (QDLs)

Sub appendix I1 QDL compliance (afflux 20% AEP)

Sub appendix I2 QDL compliance (afflux 5% AEP)

Sub appendix I3 QDL compliance (afflux 2% AEP)

Sub appendix I4 QDL compliance (afflux 1% AEP with blockage)

Sub appendix I5 QDL compliance (scour/erosion 20% AEP)

Sub appendix I6 QDL compliance (scour/erosion 5% AEP)

Sub appendix I7 QDL compliance (scour/erosion 2% AEP)

Sub appendix I8 QDL compliance (scour/erosion 1% AEP with blockage)

Sub appendix I9 QDL compliance (hazard 20% AEP)

Sub appendix I10 QDL compliance (hazard 5% AEP)

Sub appendix I11	QDL compliance (hazard 2% AEP)
Sub appendix I12	QDL compliance (hazard 1% AEP with blockage)
Sub appendix I13	QDL compliance (duration 20% AEP)
Sub appendix I14	QDL compliance (duration 5% AEP)
Sub appendix I15	QDL compliance (duration 2% AEP)
Sub appendix I16	QDL compliance (duration 1% AEP with blockage)
Appendix J	Hydrology and hydraulic models calibration report
Appendix K	Track overtopping locations—rare flood events
Appendix L	Narrabri viaduct—pier and embankment locations
Appendix M	Technical note—flood planning level
Appendix N	Assessment of local and regional flooding at Narrabri
Sub appendix A	Flood mapping for Narrabri 20% AEP local and regional flooding
Sub appendix A	Flood mapping for Narrabri 5% AEP local and regional flooding (continued)
Sub appendix A	Flood mapping for Narrabri 2% AEP local and regional flooding (continued)
Sub appendix A	Flood mapping for Narrabri 1% AEP local and regional flooding (continued)
Sub appendix A	Flood mapping for Narrabri 20% AEP local and regional flooding (continued)
Sub appendix A	Flood mapping for Narrabri 5% AEP local and regional flooding (continued)
Sub appendix A	Flood mapping for Narrabri 2% AEP local and regional flooding (continued)
Sub appendix A	Flood mapping for Narrabri 1% AEP local and regional flooding (continued)
Sub appendix A	Flood mapping for Narrabri 20% AEP local and regional flooding (continued)
Sub appendix A	Flood mapping for Narrabri 5% AEP local and regional flooding (continued)
Sub appendix A	Flood mapping for Narrabri 2% AEP local and regional flooding (continued)
Sub appendix A	Flood mapping for Narrabri 1% AEP local and regional flooding (continued)
Sub appendix A	Flood mapping for Narrabri 20% AEP local and regional flooding (continued)
Sub appendix A	Flood mapping for Narrabri 5% AEP local and regional flooding (continued)
Sub appendix A	Flood mapping for Narrabri 2% AEP local and regional flooding (continued)
Sub appendix A	Flood mapping for Narrabri 1% AEP local and regional flooding (continued)
Sub appendix B	QDL exceedance mapping for Narrabri local and regional flooding (continued)
Sub appendix B	QDL exceedance mapping for Narrabri local and regional flooding (continued)
Sub appendix B	QDL exceedance mapping for Narrabri local and regional flooding (continued)
Sub appendix B	QDL exceedance mapping for Narrabri local and regional flooding (continued)
Sub appendix B	QDL exceedance mapping for Narrabri local and regional flooding (continued)
Sub appendix B	QDL exceedance mapping for Narrabri local and regional flooding (continued)
Sub appendix B	QDL exceedance mapping for Narrabri local and regional flooding (continued)
Appendix O	Erosion potential and fluvial geomorphology assessment
Appendix P	TUFLOW fine grid modelling report
Appendix Q	Alternative flooding assessment for Bohena Creek
