Dear Mr Mitchell,

**Narromine to Narrabri (N2N) Project Preferred Infrastructure /
Amendment Report Public Exhibition**

Thank you for your letter dated 31 August 2022, inviting WaterNSW to provide comment on the above Report as well as offering to provide a briefing on the Project. Please note that WaterNSW was not invited to make a submission to the exhibition of the EIS in early 2021. However, we assume that this was due to our declining the invitations to the Planning Focus Meetings for SEARs input in July 2018, noting at the time that WaterNSW would not be impacted by this proposal.

We have carefully reviewed the amended route for the N2N proposal and have concluded that no WaterNSW land, assets or infrastructure is likely to be impacted. As such, we have no comments on the Report. A briefing on the Report is also not required.

WaterNSW requests that we are consulted on proposals with the potential to impact our land and assets using the email address Environmental.Assessments@waternsw.com.au. If you have any questions regarding this letter, please contact Alison Kniha at alison.kniha@waternsw.com.au.

Yours sincerely

A handwritten signature in black ink, appearing to read "Daryl Gilchrist".
