

Roads and Maritime Services/Sydney Airport Corporation Limited

Sydney Gateway Road Project

Environmental Impact Statement/ Preliminary Draft Major Development Plan

Table of contents
Certification

November 2019

As proponents of the Sydney Gateway road project, Roads and Maritime Services and Sydney Airport Corporation Limited, acknowledge and pay respect to the Kameygal, the traditional custodians of the land on which the project is proposed, and acknowledge their connection to the land and water of this Country.

Environmental Impact Statement / Preliminary Draft Major Development Plan

Contents

Volume 1

Certification	i
Executive summary	iii
Glossary of terms and abbreviations	xxiii
Part A Introduction, project background and description	
1. Introduction	1.1
1.1 Sydney Gateway.....	1.1
1.2 Project overview	1.3
1.3 Overview of approval requirements.....	1.4
1.4 Purpose and structure of this EIS and preliminary draft MDP	1.4
2. Location and setting	2.1
2.1 The project site for the purposes of the assessment.....	2.1
2.2 Biophysical and socio-economic environment.....	2.8
3. Statutory context and approval requirements	3.1
3.1 Overview	3.1
3.2 Airports Act 1996	3.2
3.3 Environment Protection and Biodiversity Conservation Act 1999	3.5
3.4 Environmental Planning and Assessment Act 1979.....	3.5
3.5 Other NSW legislation	3.7
3.6 Consistency with Sydney Airport planning	3.7
3.7 Consistency with the Sydney Airport lease and sub-leases.....	3.10
4. Consultation	4.1
4.1 Consultation approach and strategy	4.1
4.2 Consultation before and during preparation of the EIS/preliminary draft MDP	4.2
4.3 Issues raised and responses to feedback received	4.5
4.4 Future consultation	4.11
5. Strategic context and project need	5.1
5.1 Strategic context	5.1
5.2 Project need summary.....	5.11

- 5.3 Project objectives 5.12
- 6. Project alternatives and options 6.1**
 - 6.1 Methodology 6.1
 - 6.2 Summary of project background and objectives 6.2
 - 6.3 Consideration of strategic alternatives 6.2
 - 6.4 Project corridor and alignment options 6.7
 - 6.5 Refining the design of key project features 6.19
- 7. Project description 7.1**
 - 7.1 Overview 7.1
 - 7.2 Design development 7.11
 - 7.3 Terminal 1 connection 7.13
 - 7.4 Qantas Drive upgrade and extension 7.15
 - 7.5 St Peters interchange connection 7.20
 - 7.6 Terminal links 7.23
 - 7.7 Terminals 2/3 access 7.24
 - 7.8 Accesses to Sydney Airport land 7.26
 - 7.9 Active transport link 7.29
 - 7.10 Other (ancillary) infrastructure 7.30
 - 7.11 Access changes and permanent land requirements 7.37
 - 7.12 Urban design and place making 7.40
- 8. Construction 8.1**
 - 8.1 Overview 8.1
 - 8.2 Indicative construction methodology 8.2
 - 8.3 Construction program and timing 8.20
 - 8.4 Construction ancillary facilities 8.25
 - 8.5 Construction workforce and resources 8.33
 - 8.6 Transport and access 8.34
 - 8.7 Utility works 8.40

Volume 2

Part B Environmental assessment

9. Traffic, transport and access.....	9.1
9.1 Assessment approach	9.1
9.2 Existing environment	9.12
9.3 Assessment of construction impacts	9.25
9.4 Assessment of operation impacts.....	9.36
9.5 Cumulative impacts	9.52
9.6 Management of impacts	9.55
10. Noise and vibration	10.1
10.1 Assessment approach	10.1
10.2 Noise and vibration criteria	10.6
10.3 Existing environment	10.16
10.4 Assessment of construction impacts	10.19
10.5 Assessment of operation impacts.....	10.34
10.6 Cumulative impacts	10.41
10.7 Management of impacts	10.42
11. Airport operations.....	11.1
11.1 Assessment approach	11.1
11.2 Existing environment and safety requirements at Sydney Airport.....	11.5
11.3 Assessment of construction impacts	11.12
11.4 Assessment of operational impacts	11.16
11.5 Cumulative impacts	11.20
11.6 Management of impacts	11.20
12. Air quality	12.1
12.1 Assessment approach	12.1
12.2 Air quality criteria	12.5
12.3 Existing environment	12.6
12.4 Assessment of construction impacts	12.12
12.5 Assessment of operation impacts.....	12.18
12.6 Cumulative impacts	12.29
12.7 Management of impacts	12.30
13. Contamination and soils	13.1
13.1 Assessment approach	13.1
13.2 Existing environment	13.5

- 13.3 Assessment of construction impacts 13.16
- 13.4 Assessment of operation impacts..... 13.30
- 13.5 Cumulative impacts 13.33
- 13.6 Management of impacts 13.34
- 14. Flooding..... 14.1**
 - 14.1 Assessment approach 14.1
 - 14.2 Existing environment 14.3
 - 14.3 Assessment of construction impacts 14.12
 - 14.4 Assessment of operation impacts..... 14.17
 - 14.5 Cumulative impacts 14.24
 - 14.6 Management of impacts 14.25
- 15. Groundwater..... 15.1**
 - 15.1 Assessment approach 15.1
 - 15.2 Existing environment 15.5
 - 15.3 Assessment of construction impacts 15.9
 - 15.4 Assessment of operation impacts..... 15.17
 - 15.5 Cumulative impacts 15.18
 - 15.6 Management of impacts 15.19
- 16. Surface water 16.1**
 - 16.1 Assessment approach 16.1
 - 16.2 Existing environment 16.5
 - 16.3 Assessment of construction impacts 16.12
 - 16.4 Assessment of operation impacts..... 16.18
 - 16.5 Cumulative impacts 16.23
 - 16.6 Management of impacts 16.24
- 17. Non-Aboriginal heritage..... 17.1**
 - 17.1 Assessment approach 17.1
 - 17.2 Existing environment 17.4
 - 17.3 Assessment of construction impacts 17.14
 - 17.4 Assessment of operation impacts..... 17.18
 - 17.5 Cumulative impacts 17.21
 - 17.6 Management of impacts 17.22
- 18. Aboriginal heritage 18.1**
 - 18.1 Assessment approach 18.1
 - 18.2 Existing environment 18.2

18.3	Assessment of construction impacts	18.5
18.4	Assessment of operational impacts	18.6
18.5	Cumulative impacts	18.6
18.6	Management of impacts	18.7
19.	Land use and property	19.1
19.1	Assessment approach	19.1
19.2	Existing environment	19.2
19.3	Assessment of construction impacts	19.16
19.4	Assessment of operation impacts.....	19.28
19.5	Cumulative impacts	19.36
19.6	Management of impacts	19.37
20.	Socio-economic impacts	20.1
20.1	Assessment approach	20.1
20.2	Existing environment	20.6
20.3	Assessment of construction impacts	20.15
20.4	Assessment of operation impacts.....	20.31
20.5	Cumulative impacts	20.38
20.6	Management of impacts	20.40
21.	Landscape character and visual amenity	21.1
21.1	Assessment approach	21.1
21.2	Existing environment	21.4
21.3	Assessment of construction impacts	21.16
21.4	Assessment of operation impacts.....	21.19
21.5	Cumulative impacts	21.32
21.6	Management of impacts	21.33
22.	Biodiversity	22.1
22.1	Assessment approach	22.1
22.2	Existing environment	22.4
22.3	Assessment of construction impacts	22.18
22.4	Assessment of operational impacts.....	22.23
22.5	Cumulative impacts	22.23
22.6	Management of impacts	22.24
23.	Health, safety and hazards	23.1
23.1	Assessment approach	23.1
23.2	Existing environment	23.3

23.3	Assessment of construction impacts	23.4
23.4	Assessment of operation impacts.....	23.10
23.5	Cumulative impacts	23.13
23.6	Management of impacts	23.13
24.	Waste management	24.1
24.1	Assessment approach	24.1
24.2	Assessment of construction impacts	24.2
24.3	Assessment of operation impacts.....	24.8
24.4	Cumulative impacts	24.10
24.5	Management of impacts	24.10
25.	Sustainability.....	25.1
25.1	Assessment approach	25.1
25.2	Assessment results.....	25.3
25.3	Sustainability management.....	25.9
26.	Climate change and greenhouse gas	26.1
26.1	Assessment approach	26.1
26.2	Assessment results.....	26.5
26.3	Management of impacts	26.11
Part C Synthesis and conclusion		
27.	Approach to environmental management and mitigation	27.1
27.1	Compilation of impacts	27.1
27.2	Approach to environmental management.....	27.6
27.3	Compilation of mitigation measures	27.17
27.4	Compilation of performance outcomes.....	27.39
27.5	Project uncertainties and approach to design refinements	27.44
28.	Project justification and conclusion	28.1
28.1	Summary description of the project for which approval is sought	28.1
28.2	Justification of the project	28.4
28.3	Concluding statement.....	28.8
29.	References.....	29.1
29.1	Reference list.....	29.1

Appendices to Volume 1

Appendix A	Secretary’s environmental assessment requirements
Appendix B	Major development plan and building activity requirements under the Airports Act
Appendix C	EIS form and content requirements - Environmental Planning and Assessment Regulation 2000
Appendix D	Sydney Airport planning objectives
Appendix E	Community and Stakeholder Consultation Report
Appendix F	Strategic planning review
Appendix G	Preliminary environmental risk assessment

Volumes 3 to 9 – Technical working papers

The following technical reports informed preparation of the EIS/preliminary draft MDP.

Volume 3

Technical Working Paper 1 – Transport, Traffic and Access

Technical Working Paper 2 – Noise and Vibration

Technical Working Paper 3 – Airport Operations

Volume 4

Technical Working Paper 4 – Air Quality

Technical Working Paper 5 – Contamination and Soils

Volume 5

Technical Working Paper 6 – Flooding

Technical Working Paper 7 – Groundwater

Technical Working Paper 8 – Surface Water

Volume 6

Technical Working Paper 9 – Statement of Heritage Impact

Technical Working Paper 10 – Aboriginal Cultural Heritage Assessment Report

Volume 7

Technical Working Paper 11 – Socio-economic Impact Assessment

Technical Working Paper 12 – Business Impact Assessment

Volume 8

Technical Working Paper 13 – Urban Design, Landscape Character and Visual Impact Assessment

Volume 9

Technical Working Paper 14 – Biodiversity Development Assessment Report

Technical Working Paper 15 – Human Health

Technical Working Paper 16 – Former Tempe Landfill Assessment

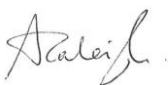

Technical Working Paper 17 – Odour Assessment

Certification

Submission of environmental impact statement and major development plan

Prepared under Division 5.2 of the *Environmental Planning and Assessment Act 1979* (NSW) (environmental impact statement) and section 91 of the *Airports Act 1996* (Cth) (major development plan).

Environmental impact statement and major development plan prepared by:

Name:	Amanda Raleigh	
Qualifications:	Bachelor of Science (Hons), Master of Urban and Regional Planning	
Address:	Gateway 2 Sydney Joint Venture (G2SJV) Level 27, 680 George Street, NSW 2000	
Responsible person:	Camilla Drover Executive Director, Motorways Roads and Maritime Services Level 22, 101 Miller street North Sydney NSW 2060	Chris Evans General Manager Construction and Facilities Management Sydney Airport Corporation Nigel Love Building, 10 Arrivals Court Sydney International Airport NSW 2020
Address of the land to which the statement relates:	Land within the Inner West, Bayside and City of Sydney local government areas as described within this document.	
Description of the infrastructure to which this statement relates:	Construction and operation of the Sydney Gateway road project.	
Environmental impact statement:	An environmental impact statement is attached addressing all matters in accordance with Division 5.2 of the <i>Environmental Planning and Assessment Act 1979</i> (NSW) and Schedule 2 of the Environmental Planning and Assessment Regulation 2000 (NSW).	
Major development plan:	A preliminary draft major development plan is attached addressing all matters in accordance with section 91 of the <i>Airports Act 1996</i> (Cth).	
Declaration	<p>I certify that I have prepared this environmental impact statement in accordance with the Secretary's Environmental Assessment Requirements dated 15 February 2019 and this preliminary draft major development plan in accordance with the requirements of section 91 of the <i>Airports Act 1996</i>.</p> <p>This document contains all available information that is relevant to the environmental assessment of the infrastructure to which the statement relates. To the best of my knowledge, the information contained is neither false nor misleading.</p>
