Re: Support for Narrabri Lateral Pipeline (SSI-53307723)

To whom it may concern,

On behalf of Specialised Civil Group and the McClure family we express our strong support for the **Narrabri Lateral Pipeline (NLP)**, a project we consider crucial to the long-term prosperity of the Narrabri region.

Santos has played a significant and positive role in the growth and vitality of Narrabri. Over the years, Santos has invested in local infrastructure, created employment opportunities, and supported regional businesses and service providers. Their presence has strengthened the town's economy, provided training and skills development, and fostered sustainable growth in a community that relies on both agriculture and industry. These contributions have had a lasting impact, helping Narrabri attract further investment and build confidence in its long-term future.

The NLP will continue this positive trajectory by creating local jobs, supporting contractors, suppliers, and small businesses, and providing a reliable energy connection that underpins both industrial and community growth. This infrastructure is essential to ensure that Narrabri remains a key contributor to NSW's domestic energy supply, while sustaining economic activity and social well-being in the town.

We recognise that issues relating to land, water, heritage, and the environment must be addressed responsibly. The Environmental Impact Statement provides a framework for managing these matters, and we support approval subject to safeguards that protect the region's natural and cultural values.

In conclusion, the Narrabri Lateral Pipeline represents both a continuation of Santos' beneficial role in the town and a critical step in supporting the community's long-term resilience. We encourage the Department to approve the project with appropriate conditions to ensure ongoing positive outcomes for Narrabri.

Thank you for considering our position.

Sincerely,

Nicholas McClure
