Dear Minister

SSD No - Thunderbolt Wind Farm

I am writing to OBJECT to the Thunderbolt Wind Farm SSD-10807896.

I am concerned with the lack of consultation with community members in regards to the planning stages of the wind farm. Community consultation is a huge step in the process and what a terrible job they have done. Communication is the key in anything. Well actually not here it isn't.

How will shaking trees be safe for any animal to survive. Koalas have a corridor here and they have become endangered. You will just add to this long list. I cannot see a koala surviving a fall from a tree that has been shaken by a large piece of equipment. Let alone all the other native animals that live in this area. What an absolute joke this is!
