Department of Planning

To Whom It May Concern

Our overarching hope for this Project and similar projects is that they leave the Community better off socially and commercially, through the conduct demonstrated by the Developer.

The Uralla Shire Business Chamber supports the development of renewable energy projects in the New England Renewable Energy Zone.

The Uralla Shire Business Chamber continues to encourage engagement between developers and businesses for the benefit of the Uralla Shire and the overall community.

The Uralla Shire Business Chamber recommends open communication between interested and engaged residents and those who are neighbouring the Thunderbolt Wind Farm. Attention to this will be of benefit to both the developer and the community of Kentucky.

The Uralla Shire Business Chamber encourages mitigation for neighbouring properties and the provision of ongoing infrastructure required for the project, removing any further burden to ratepayers and the Uralla Shire Council.

The Uralla Shire Business Chamber encourages developers to be actively involved in the community and business sector. In doing so it will be evident to all that the community has benefited and not been negatively impacted.

Executive of the Uralla Shire Business Chamber
