

The Secretary
NSW Department of Planning, Industry & Environment

13 June 2022

ATTENTION: Patrick Copas

Dear Sir or Madam

I refer to the Department's email of 7 June 2022 regarding the exhibition of the Environmental Impact Statement (EIS), for State Significant Development SSD-29668067 South Street Warehousing Estate for 'Construction and operation of a warehouse and distribution estate, comprising: two warehouses; associated office space; a portion of the north-south Collector Road off South Street; and supporting infrastructure, services and landscaping' at 311 South Street, Marsden Park (Lot 31 DP 262886) in the Blacktown City Local Government Area (LGA). Submissions need to be made to the Department by 7 July 2022.

Please find attached Endeavour Energy's submission which is based on the system being used for submissions to concurrence and referrals for development applications and planning proposals received via the NSW Planning Portal. The introduction of standard type conditions was required to keep up with the work load and expedite responses. I appreciate not all the issues in the submission may be directly or immediately relevant or significant to the Development Applications. However, Endeavour Energy's preference is to alert proponents / applicants of the potential matters that may arise should development within closer proximity of the existing and/or required electricity infrastructure needed to facilitate the proposed development on or in the vicinity of the site occur.

Could you please pass on a copy of this submission to the applicant? Should you wish to discuss this matter, or have any questions, please do not hesitate to contact me or the contacts identified in Endeavour Energy's submission in relation to the various matters. Due to the high number of development application / planning proposal notifications submitted to Endeavour Energy, to ensure a response contact by email to property.development@endeavourenergy.com.au is preferred.

Yours faithfully

Cornelis Duba

Development Application Specialist
Sustainability & Environment
