

The Secretary  
NSW Department of Planning, Industry and Environment

28 July 2022

**ATTENTION: Jenny Chu**

Dear Sir or Madam

I refer to the Department's email of 22 July 2022 regarding St Anthony of Padua Catholic School Redevelopment Modification 2 SSD-8865-Mod-2 to increase the level of the sports field to reduce excavation, including new associated structures such as retaining walls and ramp access, and amendment to the main building external colours and materials at 125-165 Tenth Avenue and 140-170 Eleventh Avenue, Austral (Lots 810, 811, 812, 840, 841, 842 DP 2475; Lots 1 & 2 DP 1232692) in the Liverpool City Council Local Government Area (LGA). Submissions need to be made to the Department by 11 August 2022.

Please refer to Endeavour Energy's submissions made to the Department on:

- 10 February 2020 for the Response to Submissions Redevelopment of St Anthony of Padua School. Concept Development application to redevelopment St Anthony of Padua Catholic School including: A Concept Proposal for a school to accommodate 2480 students and a 125 place child care centre and concurrent Stage 1 works with intersection upgrade.
- 12 May 2021 for the request to modify the St Anthony of Padua Catholic School Redevelopment – MOD 1. Proposed amendments to project staging, site layout, the composition of outdoor and indoor recreational facilities, building bulk and scale including a reduction in total gross floor area, and minor changes to drop-off / pick-up area.
- 1 November 2021 for Response to Submissions for request to modify the St Anthony of Padua Catholic School Redevelopment – MOD 1.

Endeavour Energy has noted from the Section 4.55(1A) Modification Report the proposed amendments do not appear to have a direct or significant impact on the existing or required electricity infrastructure. Notwithstanding the proposed amendments the recommendations and comments provided in Endeavour Energy's previous submissions essentially remain valid. Subject thereto Endeavour Energy has no objection to the Development Application.

For further advice the Department or the applicant can call Endeavour Energy via Head Office enquiries on business days from 9am - 4:30pm on telephone: 133 718 or (02) 9853 6666 and the following contacts:

- Customer Network Solutions Branch for matters related to the electricity supply or asset relocation who are responsible for managing the conditions of supply with the proponent and their Accredited Service Provider (ASP). Alternatively contact can be made by email [cicadmin@endeavourenergy.com.au](mailto:cicadmin@endeavourenergy.com.au).

- Easements Officers for matters related to easement management or protected works / assets. Alternatively contact can be made by email [Easements@endeavourenergy.com.au](mailto:Easements@endeavourenergy.com.au) .
- Property Branch for matters related to property tenure. Alternatively contact can be made by email [network\\_property@endeavourenergy.com.au](mailto:network_property@endeavourenergy.com.au) (underscore between 'network' and 'property').
- Field Operations Branch for safety advice for building or working near electrical assets in public areas. The site is in the area covered by Hoxton Park Field Service Centre. Alternatively contact can be made by email [Construction.Works@endeavourenergy.com.au](mailto:Construction.Works@endeavourenergy.com.au) .

Should you wish to discuss this matter, or have any questions, please do not hesitate to contact me or the contacts identified above or in Endeavour Energy's previous submissions in relation to the various matters. Due to the high number of development application / planning proposal notifications submitted to Endeavour Energy, to ensure a response contact by email to [property.development@endeavourenergy.com.au](mailto:property.development@endeavourenergy.com.au) is preferred.

Yours faithfully

Cornelis Duba

Please note the location, extent and type of any electricity infrastructure, boundaries etc. shown on the plan is indicative only. In addition it must be recognised that the electricity network is constantly extended, augmented and modified and there is a delay from the completion and commissioning of these works until their capture in the model. Generally (depending on the scale and/or features selected), low voltage (normally not exceeding 1,000 volts) is indicated by blue lines and high voltage (normally exceeding 1,000 volts but for Endeavour Energy's network not exceeding 132,000 volts / 132 kV) by red lines (these lines can appear as solid or dashed and where there are multiple lines / cables only the higher voltage may be shown). This plan only shows the Endeavour Energy network and does not show electricity infrastructure belonging to other authorities or customers owned electrical equipment beyond the customer connection point / point of supply to the property. This plan is not a 'Dial Before You Dig' plan under the provisions of Part 5E 'Protection of underground electricity power lines' of the *Electricity Supply Act 1995* (NSW).
