Dear Planning

Subject: SSD-29508870: Birriwa Solar Farm

I object to the Birriwa Solar Electricity Generating Works proposal because I cannot support a project that relies on slave labour to provide its over a million cheap solar panels and tonnes of large scale batteries.

I object to the Birriwa Solar Electricity Generating Works proposal because there is no 100% economic or effective recycling of either the toxic solar panels or the toxic lithium batteries.

I object to the Birriwa Solar Electricity Generating Works proposal because I am not convinced it will result in cheaper electricity for us or others.

I object to the Birriwa Solar Electricity Generating Works proposal because it is a very poor use of agricultural land, which we need to be able to produce food for current and future generations of Australians.

Your faithfully
A Gulgong Citizen
