[Maryvale Solar MOD 2 - Capacity increase | Planning Portal - Department of Planning and Environment \(nsw.gov.au\)](http://www.planningportal.nsw.gov.au/major-projects)
From: name withheld

Dear Ms Dunn

I object to SSD-8777 Maryvale Solar Works Mod 2 for some of the following reasons:

I object to the Maryvale Solar Electricity Generating Works and BESS proposal because I cannot support a project that relies on slave labour to provide its over 450,000 cheap PV solar panels and tonnes of large scale batteries.

I object to the Maryvale Solar Electricity Generating Works and BESS proposal because there is no 100% economic or effective recycling of either the toxic solar panels or the toxic lithium batteries.

I object to the Maryvale Solar Electricity Generating Works and BESS proposal because I am not convinced it will result in cheaper electricity for us or others.

I object to the Maryvale Solar Electricity Generating Works and BESS proposal because it is a very poor use of productive agricultural land, which we need to be able to produce food for current and future generations of Australians.

I object to the Maryvale Solar Electricity Generating Works and BESS proposal because their claim of virtually no glare from their solar panels is not factual as evidenced by the glare at times from the rooftop solar panels of my neighbours. They likened the solar panel glare to that of a car windscreen. One car windscreen is vastly different to the glare from 450,000 solar panels all simultaneous oriented to the sun.

Your faithfully
A Gulgong Citizen
