

**COVER PAGE – SUBMISSION RE:
Great Western Highway – proposed tunnel construction**

**Name: Hugh and Andrew Johnson
Address: “Urimbirra”, 151 Mill Creek Road, Kanimbla NSW 2790**

Application number SSI-22004371

Do you support or object to the proposal?

We have no objections to the tunnel. However, we do have serious concerns about the EIS, because of inaccuracies within the documents. There is insufficient information to reassure us that the Department is capable of preventing potentially negative environmental impacts in the Kanimbla Valley area.

The reasons why you support or object to the proposal?

1. Information released to the community to date is either incorrect or inadequate, and requires more rigorous professional investigation and correction.
2. Community/local landholders need you to look more closely at the potential long term environmental impacts:
 - (a) groundwater – risks to supply, quality, flows, etc.
 - (b) risks/danger of harm to existing environment, protected vegetation and wildlife.
