REF: APPLICATION NO: SSD-10432

PROPOSAL: Stone Ridge Quarry Project.

SUBMISSION OF OBJECTION TO STONE RIDGE QUARRY

There has not been enough thought, studies or consideration of the reasons and need for this quarry.

There are already quarries in close proximity.

The destruction a wildlife corridor will hasten the demise of already endangered wildlife. And also the loss of oxygen generating trees and wildlife habitat.

Traffic will increase on already poor roads. Noise and dust pollution will increase. Water supply will be polluted.

There are enough reserves of quarry material not to justify the need for this Stone Ridge Quarry.

The unprecedented massive scale of logging in state forests is already out of control, unwarranted and massively destructive contributing to climate change and loss of biodiversity in Australia.

Quarries are a cancer on our landscape, destructive and there's too many of them destroying and changing our local bushland areas.

Soon there will be more and better alternatives for roads, buildings and other works.
