6 October 2023

The NSW Minister for Planning and Public Spaces

Copy: Jerry Maycock

Chairman, TransGrid

Dear Minister

Re: HUMELINK Project; SSI-36656827

OBJECTION SUBMISSION TO EXHIBITED EIS

Property: Lots 124, 220 and 215 in DP 753629, Childowla Road, Bookham (the Property)

I am the director and sole shareholder of Harissa Pty Limited, the registered proprietor of the Property.

It is proposed that the Property will be bisected by several high voltage transmission lines as part of the Humelink Project.

I object to the siting of towers on the Property *as presently proposed* because:

- the Property was acquired, and is maintained, for the sole purpose of memorialising my deceased son, Mr Christopher Azzi; and
- the proposed route of the line will desecrate not only the physical memorial erected by me and my family to the memory of my son, which I maintain on the highest point of the Property, it will also destroy the spiritual significance of the whole of the Property in a manner which cannot be justly compensated under the *Just Terms Act*.

HARISSA Pty Ltd ACN 069 461 605

146-158 Joynton Avenue, ZETLAND NSW 2017
Locked Bag 555, ROSEBERY NSW 1445 Phone 02 9313 8833 Fax 02 9313 7733

I also object to the Project being located across the Property as presently proposed as it will traverse it in such a way as to destroy any potential to erect a dwelling house I propose to erect in close proximity to my late son's memorial cairn and crucifix.

The presence of high voltage transmission lines on the Property will exacerbate the risk of fire, will create unwanted noise and will permanently visually blight my land and other properties with views of my land.

I suggested an alternate route for the line to TransGrid following a site inspection on 14 July 2023. I did so in good faith in the knowledge that the Project would likely be approved but that the final route might be capable of modest re-alignment.

Despite this, and despite my giving consent to access to my land in support of that request, TransGrid has still not responded to my request. The delay in TransGrid dealing with my request is especially personally stressful to me. I have copied this objection to the Chairman of TransGrid.

If any public hearing is called to consider the merits of this project, I hereby request the right to make submissions either personally or via my legal representatives.

Yours faithfully

per 

Tony Azzi
