Paling Yards Windfarm- Objection letter

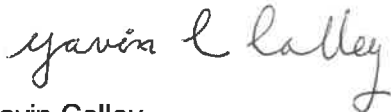

Application Number: SSD-29064077
Assessment Type: State Significant Development
Development Type: Electricity Generation - Wind
Local Government Areas: Oberon

I strongly object to the Paling Yards Windfarm Tower project:

1. The towers are a magnet for lightning strikes in steep country and very hard to get to with the fire truck.
2. It will devalue the land in the Oberon LGA because these towers are an eye sore on the country side.
3. Biosecurity is a real risk bringing in needle grass; love grass and god know what else.
4. More Heavy vehicles on roads and possible damage to the trees especially the Desert Ash trees at Memorial Avenue O'Connell.
5. I have been a RFS volunteer for 54 years and I do know a little bit about fire fighting.

Thank you for allowing me express my concerns.

Yours Sincerely

A handwritten signature in cursive script that reads "Gavin Colley".
