1	They do not go far enough. Everybody needs to pay a little extra now to avoid catastrophic increases in the cost of living and health care under the "do-nothing" scenario	1/25/2023 1:33 PM
2	The Australian government needs to look more holistically at the problem. To date rural Australia has enabled government to reach some targets. The urban environment needs to step up and look at solutions for business, individuals and stop building homes and towers that require air conditioning heating etc because of poor design.	1/10/2023 6:31 PM
3	Economic growth trickle down model not working and will continue to seek profit from any resource it can. Government should look towards small scale community sufficiency	1/6/2023 11:31 AM
4	CLIMATE HAS ALWAYS BEEN CHANGING AND WILL CONTINUE TO DO SO REGARDLESS	11/20/2022 3:40 PM
5	Ad hoc, populist actions, Tanya Plibersek-Env Minister- following Swedish 14yo girl's diatribes without looking at science; and dead against farmers	11/12/2022 5:06 PM
6	Not well thought out & timeline is ridiculous	11/9/2022 11:55 AM
7	Think there is more to be done	11/9/2022 10:44 AM
8	It is feeble! More research needs to be done first, such as 'what do the water molecules in the atmosphere do to impact climate?'	11/9/2022 10:42 AM
9	No, as our chief scientist said shutting our whole economy would make virtually no	11/9/2022 7:40 AM

	difference to world emissions/climate	
10	Sadly Australias actions wont mitigate global warming because we are too small	11/5/2022 9:14 AM
11	I think strategically the government has got it wrong. They have not considered the social and environment impacts of all the major wind and solar projects and the associated transmission infrastructure on rural communities. It appears the REZ schemes will have the impact of concentrating renewable energy projects around some communities (Coolah being one) and effectively transforming those communities into industrial zones. These projects tend to divide communities and Coolah is no exception. The government should place all large scale renewable energy projects off shore (as is what is happening in Europe) or where the existing transmission infrastructure exists rather than building 10,000 klms of destructive transmission lines throughout the country. Off shore wind generation is twice as energy efficient as on shore wind generation and in Australia would be much closer to the user base given that 90% of the population lives on the coast. No need for expensive and ugly new transmssion lines everywhere! Further, each town should be powered by micro renewables developments and each household should be required to have solar panelling on their roof - again negating the need for big infrastructure and masses of transmission lines	11/2/2022 6:15 PM
12	Really need a proper carbon tax so large polluters need to change	11/1/2022 8:51 PM
13	There is no clear planning or interaction with the people	11/1/2022 1:57 PM
14	Easiest target to hit is agriculture when industries have been working on reduction	11/1/2022 1:26 PM

Q19 Climate scientists believe that people are contributing significantly to today's climate change, primarily by releasing excess greenhouse gases into the atmosphere. If you primarily agree with this statement, which activities do you see as the biggest contributors to this? Tick all that apply.

Answered: 130 Skipped: 0

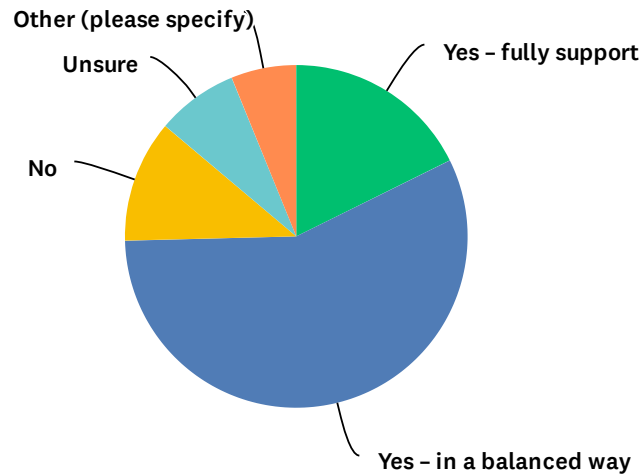

ANSWER CHOICES	RESPONSES	
don't agree with this statement	38.46%	50
burning fossil fuels for energy	40.00%	52
cultivating crops	8.46%	11
raising livestock	7.69%	10
clearing forests	34.62%	45
other	7.69%	10
Other (please specify)	13.08%	17
Total Respondents: 130		

#	OTHER (PLEASE SPECIFY)	DATE
1	transport	1/25/2023 1:33 PM
2	I believe we over produce. There is a lot of waste. If we produced inky what we needed, any impact we have on climate will be greatly reduced.	1/13/2023 10:24 PM
3	Urban environments because of their lack of sustainability poor design and excessive consumption. Raising livestock is part of the natural cycle of CO2 it is only when they are in feedlots that there are issues. Cultivating crops is a problem because they are monocultures and do not provide opportunities for healthy ecosystems to survive.	1/10/2023 6:31 PM

4	I think if the government was actually serious about saving the environment they would make it accessible for more people to have self sufficient off grid homes not make it harder.	12/4/2022 8:48 AM
5	Overpopulating areas, building concrete cities and using non-recyclable products then pretending to be green is more harmful than growing crops or raising livestock.	11/20/2022 10:57 PM
6	Climate scientists have their own agenda - not proper science, peer reviewed. Was Global Warming until it got colder.	11/12/2022 5:06 PM
7	Think there is many aspects all contributing,	11/9/2022 10:44 AM
8	Scientists don't say this - the media does!!!	11/9/2022 10:42 AM
9	Activist climate scientists preach as above, objective climate scientists have proven natural variation is the main driver	11/9/2022 7:40 AM
10	Don't agree with question	11/5/2022 8:14 AM
11	Renewables are more harm than good	11/5/2022 8:07 AM
12	Transportation	11/2/2022 6:15 PM
13	Money driven development by wealthy or foreign investment	11/2/2022 11:12 AM
14	Plastics, landuse, travel emissions, consumerism	11/1/2022 7:40 PM
15	A mix of all of the above. Humans need to be more responsible and not have everything. Everyone wants to blame someone else. We all need to do our bit to conserve energy.	11/1/2022 6:44 PM
16	Exotic growth- too much stuff- move phones, TV, masses of clothing etc- people need to eat, animals part of that system for millennium	11/1/2022 1:26 PM
17	aeroplanes, driving hours to work in the city instead of living close to work places	11/1/2022 12:59 PM

1	Not avail to majority of population and sent out under developer	1/24/2023 7:39 PM
2	No because it doesn't seem to matter the government will just go ahead not caring at all what the people think	12/4/2022 8:48 AM
3	I don't think it will stop the industrialisation of our town	12/3/2022 12:53 PM
4	I HOPE SO	11/20/2022 3:40 PM
5	Developers/land hosts are only interested in making money and will likely disregard any disagreement	11/9/2022 7:40 AM
6	No body listen anyway. Governments	11/2/2022 9:31 AM
7	I think this is just because of the wind turbines that they have tried to sneak in but people have noticed an don't like it	11/1/2022 4:54 PM
8	Only if they want to know how many people believe in hunan created global warming/vintage change	11/1/2022 1:50 PM
9	Not if state gov have no power to stop Wind farm projects once get approved. With proposed major changes it should have to start again and be independent ally assessed re impacts. Especially consider cumulative impacts of REZ infrastructure and multiple projects on communities	11/1/2022 12:28 PM

Q26 What questions, if any, do you think were missing from this survey?

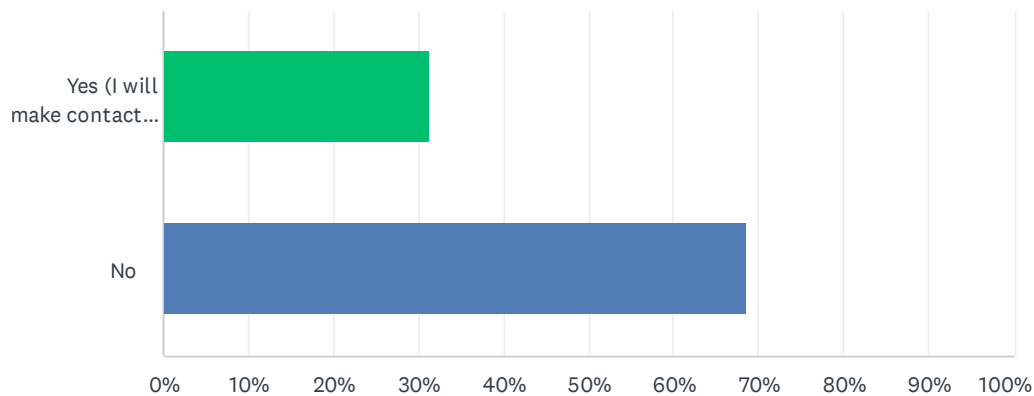

Answered: 47 Skipped: 83

#	RESPONSES	DATE
1	1)Do you believe that our concerns as a community are being listened to and truly considered and 2) Do you think as a community we should be able to vote on the proposed developments and have those votes sincerely considered in allowing us to make the decision	1/13/2023 10:24 PM
2	How community members visualise their community in 10 and 20 years time.	1/10/2023 6:31 PM
3	Yes just look overseas Germany for example they went renewable and now they are buying from Russia gas etc . Total scam on the government!!	1/5/2023 9:30 AM
4	do you support the orana rez?	12/17/2022 10:43 PM
5	More royalties to the community for sporting equipment better fillers e.g. tennis courts maybe squash courts .all weather sport complex good for us and your contract work forces .sponsorship for camp draft redeo football junior league/netball a native community is a happy community 😊	12/15/2022 10:43 AM
6	Do you believe the money will be distributed into the community in the effected area responsibly and collaboratively with the local community - not government	12/5/2022 11:13 AM
7	Why should we as a community host rez when a high percentage don't want it.	12/4/2022 8:48 AM
8	Do you think these developments will pit neighbour against neighbour and destroy our community? Yes, we won't be able to run committees with a good cross section of community members	12/3/2022 12:53 PM
9	What percentage of the construction workforce do you think should be local residents?	12/3/2022 9:17 AM
10	No questions	12/3/2022 7:47 AM
11	Is the Coolah community more upset about the view they will lose or the environmental damage that will be done to the landscape around Coolah	11/20/2022 10:57 PM
12	TRUTH ABOUT CLIMQATE CHANGE	11/20/2022 3:40 PM
13	.	11/13/2022 6:19 AM
14	Do we think there is corruption in the energy industry	11/12/2022 8:01 PM
15	Do you believe Windfarms are carbon neutral within 2 years? What about the manufacture, transport from overseas, transport within Australia, construction, concrete - all fossil fuels, and water.	11/12/2022 5:06 PM
16	respondents judgement will be coloured by the amount of money they are receiving from developments. Yet you do not ask the question? Are you expecting money from these developments?	11/11/2022 11:42 AM
17	stupid survey	11/11/2022 10:09 AM
18	at no stage have you asked what money do you expect to receive from the renewable projects	11/11/2022 7:20 AM
19	None	11/9/2022 5:28 PM
20	Support from these companies, jobs for the towns etc;	11/9/2022 4:36 PM
21	Who do you think will help fund these large scale projects?	11/9/2022 1:07 PM
22	You could ask reasons as to why we don't want the wind farm so that the people pushing these agendas can see the average Joe's concerns for not wanting it. There are so many unanswered questions on these wind farms that they don't talk about.	11/9/2022 12:15 PM
23	Do you have a job and pay tax every fortnight? If not, then your opinion on the wind farms and projects being built is irrelevant. Sick of hearing all the crying and whinging bout it. I'm all for it to happen	11/9/2022 10:50 AM
24	Why are we not looking to the bigger picture?	11/9/2022 10:42 AM

25	Do you stand to receive a financial benefit from these developments?	11/9/2022 7:40 AM
26	Do you think that renewable energy solutions that impact on Coolahs landscape and environment should also directly benefit Coolah?	11/9/2022 7:22 AM
27	All covered.	11/7/2022 9:24 PM
28	What changes to the wind turbines would the community like to see? Ie. For me it would be keeping the turbines away from town vision.	11/5/2022 1:25 PM
29	If the projects were reduced in size would you be more open to accepting a project in this area?	11/5/2022 9:14 AM
30	No, the survey was well formulated I feel	11/5/2022 8:40 AM
31	Are survey respondents receiving money from these developments	11/5/2022 8:07 AM
32	Thank you Sally	11/3/2022 9:33 PM
33	NA	11/2/2022 8:41 PM
34	Consideration of deveopers and government to a town as small as Coolah and the general affect it will have on the people and the detrimental visual affect on all.mall	11/2/2022 11:12 AM
35	It doesn't matter the powers that be will do what ever they want	11/2/2022 9:31 AM
36	None	11/1/2022 9:09 PM
37	What are the brick walls or things that stop us changing to more sustainable methods eg how do we feed the world without fertilisers and Ag chemicals	11/1/2022 8:51 PM
38	Actual questions regarding the aspects of the renewable energy zone which will turn out lives on end. There is a presumption in the questions that man induced climate change is a given	11/1/2022 7:44 PM
39	What are the benefits COOLAH wants to see if it's too late	11/1/2022 7:40 PM
40	The order of questions has a result on answers. Starting with the type of society we want to live in defines the answers we give to questions. The questions asked are deep and need far mor discussion than is allowed in this simple questionnaire. Drawing conclusions from the results could be simplistic? One has to ask what is the purpose of the survey, who is to use the results, are there hadden agenda here?	11/1/2022 6:41 PM
41	Is it a case of NIMBY? Are you willing to let Coolah continue it's decline if there is no new investment in the area.	11/1/2022 5:10 PM
42	I think the main question is why do we have to put up with the negatives of the turbines. We little to no benefits to individuals because as for me personally I see zero gain an major loses to property value an every thing I love about coolah will be ruined.	11/1/2022 4:54 PM
43	Will you be receiving financial benefit from these infrastructure projects? ie. Do you have conflict of interest	11/1/2022 3:08 PM
44	Climate change SCAM	11/1/2022 3:07 PM
45	Talking to the people about renewable energy & gaining thoughtful insight	11/1/2022 1:57 PM
46	* do you think the community will be torn apart by these proposed developments? * do you want to see a clear map of all money coming to the projects via subsidies and who benefits from the profits? * do you want to see the brake down of all materials used, where they come from and the energy used to gather, process, transport and erect them before they actually start producing their own energy? * Do you want to see the (transparent) efficiency of theses projects compared to other means of energy production?	11/1/2022 1:50 PM
47	Need to clarify what changes are feasible and permitted by legislation. Is there any point discussing, advocating if my sjoritybofvissyescare unable to be changed or stopped because we don't have legal right now to stop. Our g c immunity has been through so much already. Don't want another najorvstrssir h my festively impacting peoples well-being.	11/1/2022 12:28 PM

Q27 Thank you for participating in this survey. The future of Coolah is obviously important to you. One final question: Would you be willing to volunteer to help progress Community Conversation around this topic, to try and preserve the precious relationships within our community, and maintain and grow all the positive aspects of the Coolah Community?
