8 April 2024

The Secretary
NSW Department of Planning, Housing and Infrastructure

Attention: Sam Burns

SSD-9522-Mod-6 Kemps Creek Warehouse, Logistics and Industrial Facilities Hub

Dear Sir or Madam

I refer to the Department's email of 25 March 2024 regarding State Significant Development SSD-9522-Mod-6 Kemps Creek Warehouse, Logistics and Industrial Facilities Hub MOD 6 - Amendments to Lots 1, 3 and 4 at 657-769 Mamre Road, Kemps Creek (LOT 2 DP 1288946). Submissions need to be made to the Department by 10 April 2024.

Please refer to Endeavour Energy's previous submissions made to the Department on:

- 9 July 2019 for the Environmental Impact Statement (EIS) for SSD 9522
- 27 August 2020 for the Response to Submissions (RtS) to the exhibition of the EIS for SSD-9522.
- 1 May 2021 for SSD-9522 MOD 1 Changes to Lot 5.

Notwithstanding the proposed modifications, the conditions and advice provided therein essentially remain applicable to this Development Application. Subject thereto Endeavour Energy has no objection to the Development Application.

Please find attached for the applicant's reference copies of Endeavour Energy's:

- Land Interest Guidelines for Network Connection Works, Version 5, December 2022.
- Standard Conditions for Development Applications and Planning Proposals, Version 9, August 2023 which provides some additional and updated information.

For further advice the applicant can call Endeavour Energy via Head Office enquiries on business days from 9am - 4:30pm on telephone: 133 718 and the following contacts:

 Customer Network Solutions Branch for matters related to the electricity supply or asset removal / relocation who are responsible for managing the conditions of supply with the applicant and their Accredited Service Provider (ASP). Alternatively contact can be made by email CWAdmin@endeavourenergy.com.au.

The applicant will need to contact Endeavour Energy's Customer Network Solutions Branch if this Development Application:

- Includes any contestable works projects that are outside of any existing approved / certified works.
- Results in an electricity load that is outside of any existing Supply / Connection Offer requiring the incorporation of the additional load for consideration.
- Easements Officers for matters related to easement management, protected works or other forms of property tenure / interests. Alternatively contact can be made by email Easements@endeavourenergy.com.au.
- Property Branch for matters related to property tenure. Alternatively contact can be made by email network property@endeavourenergy.com.au (underscore between 'network' and 'property').
- Field Operations Branch for safety advice for building or working near electrical assets in public areas. The site is in the area covered by Penrith Field Service Centre. Alternatively contact can be made by email Construction. Works@endeavourenergy.com.au .

Should you wish to discuss this matter, or have any questions, please do not hesitate to contact me or the contacts identified above or in Endeavour Energy's previous submissions in relation to the various matters. Due to the high number of development application / planning proposal notifications submitted to Endeavour Energy, to ensure a response contact by email to Property.development@endeavourenergy.com.au is preferred.

Yours faithfully

Cornelis Duba | Development Application Specialist

Endeavour Energy respectfully acknowledges the Traditional Custodians on whose lands we live, work, and operate and their Elders past and present.

Please note the location, extent and type of any electricity infrastructure, boundaries etc. shown on the plan is indicative only. In addition it must be recognised that the electricity network is constantly extended, augmented and modified and there is a delay from the completion and commissioning of these works until their capture in the model. Easements benefitting Endeavour Energy are indicated by red hatching. Generally (depending on the scale and/or features selected), low voltage (normally not exceeding 1,000 volts) is indicated by blue lines and high voltage (normally exceeding 1,000 volts but for Endeavour Energy's network not exceeding 132,000 volts / 132 kV) by red lines (these lines can appear as solid or dashed and where there are multiple lines / cables only the higher voltage may be shown). This plan only shows the Endeavour Energy network and does not show electricity infrastructure belonging to other authorities or customers owned electrical equipment beyond the customer connection point / point of supply to the property. This plan does not constitute the provision of information on underground electricity power lines by network operators under Part 5E 'Protection of underground electricity power lines' of the *Electricity Supply Act 1995* (NSW).
