

My name is Marnie Roberts. I am 7 years old. I live at the property called “Dunbogan”. I don’t want this project to go ahead because we might have to move. I like where we live and don’t want to leave my friends and the farm. I also love the view from our house and don’t want to look at the solar panels as they are ugly. This is what the view from my house looks like now and what it will look like if the project gets built.

I don’t want my friends to see the solar panels as they will think it looks ugly compared to what it looks like now. The project will also ruin my favourite BBQ spot.

Thankyou

Marnie Roberts
