

I am writing in support of the Pottinger Wind Farm project.

I am a supporter of wind and solar farms, but in the right landscape.

I am very concerned that many of the proposed wind farm projects in the Riverina may attract public concern from wind farms spoiling the scenic view from the Cobb Highway. The Cobb Highway is a tourist route known as "The Long Paddock". Quoting a New South Wales tourist web site "the Long Paddock, an iconic touring route that meanders through the heart of Australia inviting travellers to embark on a journey through landscapes that resonate with history, culture and the spirit of the outback".

The Pottinger Wind Farm is located 15 kilometres east of the Cobb Highway, "out of sight and out of mind".

The Pottinger Wind Farm careful planning demonstrates a thoughtful approach to balancing development with natural beauty.

A handwritten signature in black ink, appearing to read "M. Hook". The signature is fluid and cursive, with a large, sweeping loop at the end.
