

11 September 2013

Mr Michael McCullagh
Manage Meant Pty Ltd
45 Bowman Street
Pymont 2007 NSW

Dear Mr McCullagh

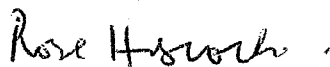

On behalf of the Trustees of the Museum of Applied Arts and Sciences, I would like to thank you and the Jacksons Landing Community Association for the donation of a model of the Jacksons Landing development.

Jacksons Landing is a leading example of contemporary trends in Australian urban development. It embodies several important tendencies, notably the redevelopment of former industrial sites at near-city locations, the creation of high-density apartment and townhouse precincts with leisure, commercial and retail facilities and a high level of professional designer involvement.

The model is an outstanding record of a major and pioneering urban development, with added value from its proximity to the Powerhouse Museum.

Once again, thank you for your gift. The Trust hereby acknowledges your generosity and, in accordance with your expressed intention, now has full title to and responsibility for the model. When published or displayed, your gift will be acknowledged as 'Gift of the Jacksons Landing Community Association 2013'.

Yours sincerely

Rose Hiscock
Director
