The **red frame** in the following diagram is the approximate residential area that gets fully parked out with any event on at MJS. When sell-out concerts or sport events have been held at MJS, the parking was much wider than shown.

75 minutes prior to the Jets home game commencing on Saturday 19 October 2024, I walked around the residential streets within the **black frame** in the diagram below. I took photos in every street & have attached them to my submission as Attachment B. Unless the decision makers attend our suburb during a MJS event, they will have little to no idea of the impact on residents.
