

I walked our local streets between 5.45pm & 6.30pm on Sat 19 October 2024 & took the following photos. Importantly, the Jets game did not commence until 7.00pm.

Monash Rd, looking west from Turton Rd. Note the pedestrians using the roadway as there are no footpaths in Monash Rd – which is the first choice for parking for most patrons attending McDonald Jones Stadium. The site of the proposed basketball development is the green space behind the fence in the right of this photo.

Looking from Turton Rd north, into the McDonald Jones Stadium carpark (storm drain behind fence) – showing a full 900 space carpark & almost empty grandstand. Only 25% capacity crowd & yet all local residential streets around the basketball application site were completely parked out.

NOTE: The plans for the Hunter Park / Broadmeadow Precinct completely REMOVE all 900 car spaces from McDonald Jones Stadium. The carpark is to be rezoned E2 Commercial for planned accommodation, commercial, restaurants & retail.

Broadmeadow Medical Centre, which is completely parked out by McDonald Jones Stadium patrons hours before games commence. This centre is open after hours & on weekends. It was open at 6.15pm on Saturday 19 October 2024, as evidenced by the red & blue banners.
