16	19/2/25	Lucy	Cheng	Yes	Yes, including: 1. Increased congestion on an already congested Hill Rd. 2. Safety to pedestrians especially young children. Hill and Burroway are already extremely unsafe for children to cross as insufficient planning of crossings have been implemented. With increased traffic this will increase the safety risk especially on Burroway Rd for the school children. 3. Lack of community space - currently there is no viable meeting place for regular community events like youth group for high schoolers, meeting place on a Sunday for more than 1000 Christians in Wentworth Point (as function rooms on top of library can't be regularly booked on a weekend due to insufficient function rooms for other events. 4. Insufficient playgrounds for children. We do not need more apartments in Wentworth Point but more community spaces and especially for the children of Wentworth Point.
