to me ▾

Hi Laaya,

The area directly located across from Pioneer Street is a riparian corridor/public reserve. Development in this area is limited to public **recreation** activities such as rehabilitation of the riparian corridor and existing vegetation and passive **recreation** such as walking and cycling.

Beyond the public reserve is a future industrial Precinct which will extend from Smeaton Grange.

Please do not hesitate to contact me if you have any further questions. I can be reached on (02) 4654 7604.

Kind Regards,

Brad

Hope you are well.

I am buying a land lot 251 at the corner of Pioneer Street and Barret Street in Gregory Hills, I noticed there is a big area in front of that.

May I know what's the future plan for that area?

What will be built in the future?

I have attached a photo as well to show you what I am asking about.

Appreciate your help.

Laaya
