Hi

Please can you send me through the plans relating to the development? Alternatively can you provide a link to all the application information. I could not find this information on the consultation website.

Thanks  
Rachmat Djajadikarta

Hi Rachmat,

Thanks for reaching out! And apologies for the delayed response (technical difficulties).

All the information is on the website page [www.marrickvilletimberyards.com.au](http://www.marrickvilletimberyards.com.au) under the ‘Frequently Asked Questions’ section. There’s also an online survey to collect your feedback, which would be great. The Development Application hasn’t been submitted yet, this is planned for the end of this year which will include the detailed plans.

Hope this helps – please let us know if you have any other questions we can answer.

Kind regards,  
**RTL** co team

Thanks for getting back to me

Are you able to send through a copy of your consultation material that you had prepared and displayed during the drop ins? (Will you be making any of this available to the community?) Or will you not be providing this information to the community (unless they are physically present in the drop in session)?

Hi Rachmat,

Thank you for reaching out. We appreciate your interest in the project and value your feedback.

Do you have time for a one-on-one discussion with a member of the development team to talk through the project and any concerns and questions you may have? Please let us know if this is of interest and we will arrange a time that works for you.

By way of background, engagement specialists JOC Consulting are leading the early community engagement component of the project. Unfortunately, an unapproved version of the notification letter was sent to local residents in error on Thursday 24 October that included incorrect dates for both the survey and drop-session. This was rectified immediately with a correction letter sent on Saturday 26 October. We apologise for any confusion this may have caused.

Ethos Urban has been commissioned to manage the social impact assessment (SIA) component of the project. The SIA survey went live on Thursday 24 October and was promoted via the project website and the notification letter. It closed on Friday 8 November 2024 having been open for 15 days.

This early round of consultation has been delivered prior to lodgement of the SSDA and has been helpful in identifying community feedback and concerns. A full suite of plans and design will be available for viewing by the public as part of the State Significant Development Application (SSDA) and there will be an opportunity to provide feedback via the formal submission process.

Thank you again for your input and engagement with the project. Your feedback will also will help inform future consultation programs.

Warm regards,  
RTLco Team

Hi Stephen

Thank you for your time over the phone earlier this week.

Please can you forward my request to the applicant and confirm when you have forwarded through? It is with regard to the community drop in sessions and survey.

Hi RTL

I was notified of your community drop in sessions recently via letterbox drop. The initial drop in date was 4pm-8pm Wednesday 30th October with the Survey closing Wednesday 20th November (giving 3 weeks to respond to the information presented). This was changed to having 2 drop in sessions - Monday 4th November and Thursday 7th November - **however the survey to respond was shortened to close 1 day later on Friday 8th November**. This has meant that the community only has one day to digest the information and provide a considered response to the survey. It should be noted that the project website provides far less information than provided during the drop in session which does not allow community members to submit informed survey responses (unless they were physically present). For reference I attach the letterbox notes and a screenshot of the expired survey.

Is there any reason why the survey window was shortened to close 1-4 days from the drop in session (compared to the original 3 weeks from drop in session)?

Additionally, I have not heard back from my previous email to the project email address last week ([info@rtlco.com.au](mailto:info@rtlco.com.au)) - are you able to provide a response? (request in email from 8th November 2024 below)

*Are you able to send through a copy of your consultation material that you had prepared and displayed during the drop ins? (Will you be making any of this available to the community?) Or will you not be providing this information to the community (unless they are physically present in the drop in session)?*

Kind regards  
Ratch
