

Kurnell Peninsula Industry Projects:

1. SSD-5544-Mod-7 [MOD 7](#) - Infrastructure consolidation and remediation

AMPOL'S request to the state government to **not remediate** the redundant land that they currently occupy which is a state significant development. This includes changes to water treatment and run off into Quibray Bay and **Towra Point Nature Reserve** which is an **Internationally** recognised reserve. Some of this land will form part of the **Kurnell BESS (BESS) project** and the **Kurnell Energy and Industry Precinct (KEIP)**.

Status: Accepting online submissions.

TIME SENSITIVE - * Submissions close 1st August 2025 - put in an opposing submission or this will be approved*.

The Kurnell Precinct committee is seeking further extensions from the State Government as there are 15 technical documents (some in excess of 400 pages) which need to be carefully reviewed and considered by the community and Sutherland Shire Council.

2. SSD-64397711 [Battery Energy Storage Systems \(BESS\)](#) - AMPOL - State Significant Development **Status: Prepare Environmental Impact Statement (EIS) due later in the year. This will be installed next to Australia's largest fuel storage facility – which can house 750 million litres of fuel.**

3. SSD-86799993 [Kurnell Energy & Industry Precinct \(KEIP\)](#) - AMPOL - State Significant Development

Status: Secretary's Environmental Assessment Requirements SEARs / Prepare EIS. Discrepancy on the Major projects website.

4. [Battery Energy Storage Systems \(BESS\) - AUSGRID](#) - Upcoming State Significant Development

Status: AUSGRID has held community drop-in sessions to gauge community feedback to their use of redundant land. They have also attended the Kurnell Progress & Residents Association meeting. Not on Major projects. You may email your opinion to batteries@ausgrid.com.au

5. [Sustainable Aviation Fuel Importation and Blending](#) – watch this space.
